SEO FACTS

80% to 90% of ALL website traffic originates from a search engine such as Google, Yahoo, MSN

On average, up to 80% of people using search engines DO NOT go past the 1st page of results (top 10)

A 1st page position on Google can generate thousands of unique visitors to your website

'Natural' Search Engine results are twice as effective as Pay Per Click advertising

Search Engine Optimisation is one of the most cost effective method of promoting your business
